## DESCRIPTION

**Providing all participants with the latest trauma education and practical knowledge in order to deliver quality care to the patients we serve.**

This two-day conference for physicians, nurses, EMS and ancillary staff who care for the traumatically injured patient covers current evidence-based practice in the care of specific trauma mechanisms of injury (MOI) and innovative technology that are most commonly seen at OhioHealth's three American College of Surgeons accredited trauma centers. These MOIs include falls, motor vehicle crashes and assaults for both Grant Medical Center and Riverside Methodist Hospital, and falls, motor vehicle crashes and motorcycle crashes for Mansfield Hospital.

## OBJECTIVES

**After completion of this activity, participants will be able to:**

1. Identify innovations in trauma care utilized at OhioHealth's trauma centers.
2. List strategies to identify intimate partner violence in a traumatically injured patient.
3. Describe interventions used in a rural acute care facility in the care of the trauma patient.

## DISCLOSURE

As an accredited CME provider, OhioHealth must ensure balance, independence, objectivity and scientific rigor in all sponsored activities. Faculty and planners participating in sponsored activities must disclose all financial relationships with any ineligible company or commercial interest. All conflicts of interest are reviewed for relevancy and mitigated prior to the activity and disclosed to the learners before the activity begins.

## COMMERCIAL SUPPORT

This activity is not supported by any ineligible company or commercial interest.

## ACCREDITATION
