Course Description and Objectives

Thank you for your interest in the Ohio Health 2020 APP Conference! Please note that the format for the conference has changed. We will be holding this year's conference virtually due to the COVID-19 pandemic. Please know that the same care has been taken to ensure the delivery of quality, timely clinical knowledge from dynamic speakers, now from the comfort of your own home or office. We hope you enjoy the conference!

This year's virtual conference will address current trends in practice and burnout/resiliency for both inpatient and outpatient medical professionals.

After participating in this activity, the attendee should be more confident in their ability to:

1. Discuss the management of SARS-CoV2 patients with hypoxic respiratory failure.
2. Describe the growing demand for advanced practice providers (APPs) and emerging engagement and retention strategies.
